

Faculty of Technology, Linnaeus University

COURSES FOR EXCHANGE STUDENTS

Detailed instructions about choosing courses will be sent together with the application information to the students, nevertheless, here a few important notes to consider when nominating students:

Students coming under agreements with Faculty of Technology may only choose courses from the Faculty and are not permitted to take courses from other Schools/Faculties, unless other information/exception is stated in the agreement. This is valid regardless if the courses will be recognized at home university within the study programme or not. Beginners' Swedish is though open for all students according to the rules below.

Full time studies for one semester is 30 credits (ECTS).

Students must fulfill the specific entry requirements for each course they apply for.

Students are admitted to courses on a first come, first served basis, based on their application date. The possibilities to switch courses after the application is processed are limited and there is no add/drop period after arrival to Linnaeus University.

Each semester consists of four consecutive periods (not parallel). Most, but not all, courses at the Faculty of Technology are 7,5 credit part-time (50%) and in those cases students need to study two courses simultaneously during period 1-2 (first half of the semester), and then another two courses during period 3-4 (second half of semester). There are also a few full time (100%) courses which gives a full study load for the period(s) the course lasts, and a few part-time 25 % courses which needs to be combined with other courses to reach a full study load in total for each period.

We deeply appreciate your help in guiding the students to choose courses where prerequisites are fulfilled and that are eligible for credit transfer after the exchange.

The following rules apply for Swedish Language Courses for students at Faculty of Technology:

30 credits of Faculty of Technology courses + Beginners' Swedish 7,5 credits (37,5 credits total) OR

30 credits of Faculty of Technology courses + Introductory Swedish for International Students (noncredit) OR

22,5 credits of Faculty of Technology courses + Beginners' Swedish 7,5 credits for 30 credits total.

Course list for Faculty of Technology may be found at:
